

The super slim SANYO Weatherproof LCD is perfect for outdoor pub courtyards and gardens

The UK's First LCD Weatherproof Panel

SANYO's amazing new super slim 32" LCD Panel is the UK's first weather-resistant TV display.

SANYO has used all of its expertise in creating a lightweight aluminium framed LCD display which is protected by an acrylic front panel. This means that the SANYO Weatherproof panel can be used in a wide variety of exterior environments due to it being fully IP56 weather-resistant approved.

The SANYO Weatherproof LCD will also make the ideal display for pub courtyards and gardens, perfect due to the recent no-smoking laws.

SANYO

The flexible design and stunning picture quality makes it perfect for a host of outdoor advertising applications.

With a host of outdoor advertising applications, Water, Steam and Humidity are no problem for the Weatherproof LCD

With its stylish design and a host of great features the SANYO Weatherproof LCD will make the ideal display for **both interior and exterior environments**. The flexible design, stunning picture quality and choice of viewing options and uses makes the SANYO Weatherproof panel unrivalled in the world of modern flatscreen LCD.

IP56 PROTECTED AGAINST STRONG WATER PRESSURE JETS

IP56 PROTECTED AGAINST DUST PARTICLES

Flexible Design

A simple metal cabinet acting as extra security casing can easily be added to the unique panel. In addition, speakers can be fitted either side of the screen for added flexibility.

Stunning Quality

SANYO's high-resolution LCD panel delivers high brightness, contrast and colour. This means that the screen doesn't have to be huge in order to enjoy stunning sharpness and clarity.

Viewing Choice

The SANYO Weatherproof LCD can display TV, DVD or interactive data which gives you the choice and flexibility to show whatever information you require. This makes it the perfect choice for many point-of information applications.

The SANYO Weatherproof LCD is perfect for point-of-information applications
